## Description

**Popup Wellcom** module allow shows a modal popup with your own information. Can be used to force the customer to Accept or Decline a User License Agreement before entering the store. You can also add different popups on every page in your store, all with there unique set of information and settings. On holiday or event you can easy add advertising banner or discount banner. This module is based on the standard welcome module that comes with OpenCart.

### Features:

- Supports multiple languages
- Create your own translation with ease
- Add different popups for every layout in the store.

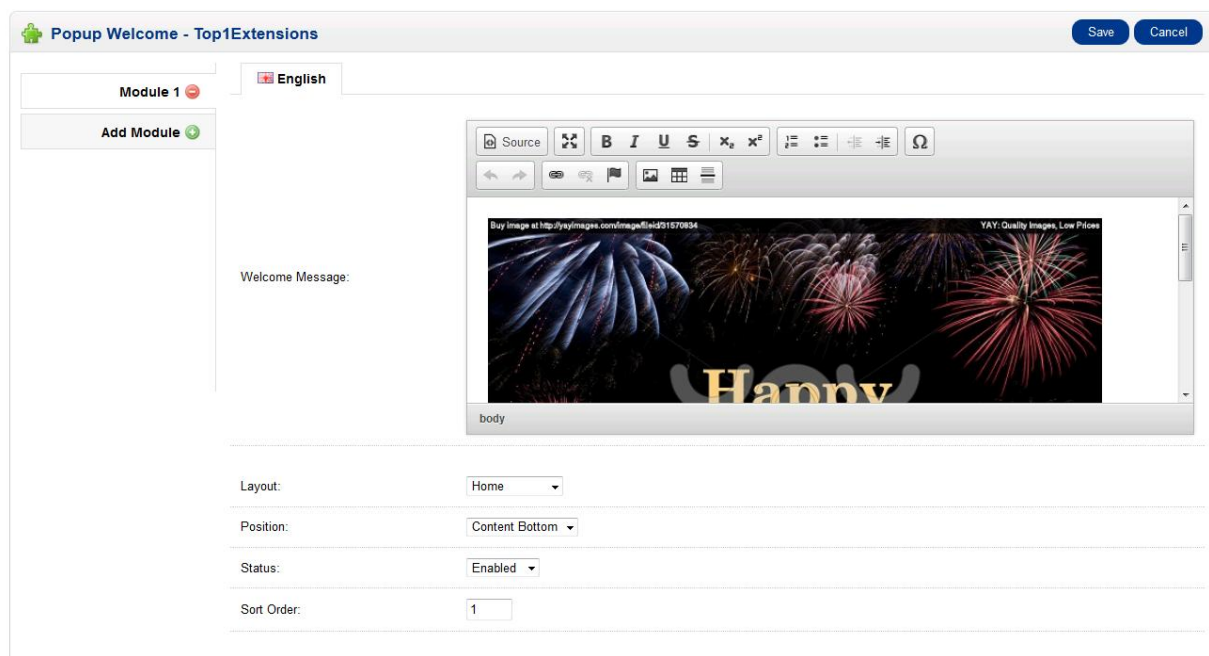

Free installation and support.

# Installation

Copy the files from the **upload** directory to your target installation directory of OpenCart

In the Administration interface, choose **Admin > Extensions > Modules**

Select **Popup Wellcom – Top1Extensions**, then click on the **Install** link to the right.

The screenshot shows the 'Popup Welcome - Top1Extensions' configuration page in the OpenCart Admin interface. The page has a title bar with a green icon and the text 'Popup Welcome - Top1Extensions', and buttons for 'Save' and 'Cancel'. On the left, there's a sidebar with 'Module 1' (with a red minus icon) and 'Add Module' (with a green plus icon). The main content area has a language selector set to 'English'. Below this, there's a 'Welcome Message:' label and a rich text editor. The editor's toolbar includes icons for source, undo, redo, bold, italic, underline, strikethrough, link, unlink, list, and link. The editor content shows a preview of a popup with a background image of fireworks and the word 'Happy' in a stylized font. Below the editor, there are configuration options: 'Layout' set to 'Home', 'Position' set to 'Content Bottom', 'Status' set to 'Enabled', and 'Sort Order' set to '1'.
